DIRECTOR OF CENTRAL INTELLIGENCE
SECURITY COMMITTEE
COMPARTMENTATION SUBCOMMITTEE

15 April 1982

MEMORANDUM FOR: Chairman,
DCI Security Committee

FROM: Chairman,
Compartmentation Subcommittee

SUBJECT: Draft Revision of DCID 1/19, "Security Policy
for Sensitive Compartmented Information (SCI)"

1. Per your tasking, the Compartmentation Subcommittee held meetings on 7 and 9 April 1982 to attempt to resolve comments submitted by SECOM principals on our 14 January 1982 draft version of DCID 1/19. There were 22 paragraphs and/or sections in which comments/changes were proposed by the SECOM membership. Each of our Compartmentation Subcommittee members exhibited a commendable spirit of cooperation in agreeing to accept compromise positions on most of the issues. The attached revision of DCID 1/19 reflects what I believe was agreed to by our Subcommittee membership on 7 and 9 April 1982.

2. However, there are six matters that we were unable to resolve at the Subcommittee level. Subcommittee members were adamant in stating that they could not accept the opposing view. Accordingly, I believe that these issues should best be further discussed at a forthcoming meeting of the SECOM itself along with any other issues that may be raised by SECOM principals as the result of reviewing the attached revised draft. The six matters in question are as follows:

- a. Definition of "Sensitive Compartmented Information"--see attachment 2.
- b. The NdA "retro-fit" requirement--see attachment 3.
- c. "PROXIMITY" access--see attachment 4.
- d. Basic SCI accountability requirements--see attachment 5.
- e. Legislative Branch access to SCI--see attachment 6.
- f. Use of Terms "SOIC" and "SIO"--see attachment 7.

UNCLASSIFIED WHEN
ATTACHMENTS ARE REMOVED
